A Community That Honors Local Character
& Supports Whitpain Township's
Residential Community

About Us

Development Team

Locally based, residents and business operators in the township

- We create new home communities throughout Montgomery County
- We successfully develop and construct single and multifamily homes.
- We focus our expertise on locating, designing and developing premium parcels
- We partner with well-known national builders to bring desirable, award-winning communities to families throughout the region.

Carriages at Arborcrest

- Age-restricted community with plans for 95 carriage homes, adjacent to the Arborcrest Corporate Campus.
- Attractive opportunity for residents looking to downsize in the community where they've planted roots.
- Each home will feature ample living space and a main bedroom on the first floor and include total exterior maintenance -- managed by HOA.

Site Plan

- Preserves the maximum open space available by limiting the number of homes being built.
- Provides significantly less homes than the previous proposals that included plans for as many as 130 townhomes and 457 apartments.
- Less intrusive than the previously proposed 140,000 sq. ft. warehouse and provides an opportunity for the township to utilize commercial space.
- Emergency access is ensured through two designated entry points.

Low Density with Positive Impacts

Proposed Plan

- Net Site Area: 26.57 acres
- Units: 95 dwelling units
- Density: 3.6 DU/AC (dwelling units / acres)

Inspired by Community Vision

- Significantly less traffic, about 40-70% less, when compared to the previously proposed development projects, including a warehouse.
- Eliminates the existing access to Penllyn Blue Bell Pike and all traffic will be directed to Jolly Road.
- Creates a new walking trail that connects to nearby amenities, preserves many of the existing trees that were assessed by a local arborist.
- Adjacent neighbors have been offered easements to continue utilizing for their needs.
- Community input is guiding the project—several meetings have been conducted to gather feedback.
