

GUIDELINES FOR HALLOWEEN

Homeowners

- If you are not comfortable having trick-or-treat guests on Halloween, please turn your outside lights off.

Trick-or-treaters

- Please do not approach any homes unless it is clear that guests are welcome.
- Allow sufficient space between groups and do not approach a home if other guests are still present.
- Appropriate face covering should be worn in addition to any masks that are part of a costume.
- If you encounter another group walking toward you, allow room to safely pass each other, but be careful to do so safely and avoid walking into a vehicular travel lane.
- Try to maintain one-way pedestrian traffic by always turning right when leaving a driveway. To go in the opposite direction, cross to the other side of the street if this can be done safely.
- Please see CDC and Montgomery County guidelines for additional precautions that should be taken and consider safer alternatives to trick-or-treating.
