PHYSICAL DESCRIPTION:

Former Tannery, current Madison Bank and other businesses

This vernacular building, heavily altered, consists of a core with at least two large additions on the rear of the property. The core is two stories high, yet there are no windows on the second floor. The roof is an end gabled, asphalt shingle unit. The walls are stucco. There is a pent roof serving the front and ends of the core, also extending along the rear additions on the north end. Fenestration consists of modern commercial picture windows. The core measures approximately 50'x 20'.

The main additions consist of a shed roofed, 2-story addition attached to the rear of the core, and a large 1-story addition attached to the rear of the first addition. Both appear to have stucco over masonry walls. The overall length of the building is 55'x 80'.

Classification: This totally modified building is Class II.
