PHYSICAL DESCRIPTION:

This Second Empire style house has many details characteristic of the style. The house is 2.5 stories high and features decorative woodwork, a Mansard roof, and 2-story rear addition. The property also has a frame garage. The core of the house has a highly decorative, flared Mansard roof with octagonal slate shingles, molded crest, and scroll-sawn brackets supporting the wooden eaves. Attached to the front of the house is a flat roofed entry porch/veranda with scroll-sawn spandrel. The 3-bay wide house also features plate glass, 2x2 sash windows on the second and third floors and vertical windows on the first floor. The entrance is through French doors topped with a 2-light transom. There are several curved pedimented dormers, including two on the main façade and two on the north and south sides. The other window openings have wood surrounds with pedimented lintels. The core measures 20'x 20'.

The addition is a 2-story extension to the rear of the core. Like the core it contains stucco- clad walls. The decorative eaves and brackets of the core have been extended along the roofline of the addition.

Associated Resource: (Garage) To the rear of the property is a 1.5 story frame garage. The garage, c. 1920, has a front- end gable roof and two garage doors with swinging wooden doors. A single window is located under the gable over the garage doors.

Classification: The Class I building with barn is in excellent condition.
